Mansoor Ahmed

Senior Product Manager | Digital Transformation | Go-to-Market

Darwin, NT, Australia | Mansoor.a@outlook.com | +61 450 509 138 | linkedin.com/in/1mansoorahmed | mansoor.page
Australian Subclass 491 Visa, Full Work Rights, Northern Territory. No sponsorship required.

PROFILE

Product Manager with over 20 years running end-to-end product lifecycles across telecommunications and consumer devices, including Nokia, Sony Mobile, and Du Telecom. Comfortable owning a roadmap from first customer insight through to launch and post-launch iteration. Has shipped software products alongside hardware portfolios: the Nokia Music Store, Sony's Xperia Lounge, xNARA's app and website, and the consumer journeys behind Du's Device Installment Plan. Brings genuine hands-on AI integration experience, not just familiarity with the tools, backed by a track record of double-digit revenue and volume growth across five global brands. Darwin-based with full Australian work rights under a Subclass 491 visa. Available on two weeks' notice for remote-first or Darwin-based senior product roles.

CORE COMPETENCIES

- **Product Strategy & Roadmapping:** vision definition, backlog ownership, prioritisation, multi-product management
- **Go-to-Market Execution:** launch strategy, positioning, messaging, customer value propositions
- **Digital Transformation:** consumer journey design, billing stack integration, BSS product catalog, agile and hybrid delivery
- **Software Product Ownership:** app and web builds, requirements, user stories, direct work with engineering
- **Commercial Management:** revenue growth, margin improvement, pricing strategy, vendor and channel management
- **AI & Automation:** ML/AI workflow integration, generative AI tools, process automation, GenAIBIZ certified
- **CRM & Analytics:** Salesforce implementation, JIRA, KPI definition and tracking

PROFESSIONAL EXPERIENCE

Telstra | Retail Consultant | Darwin, NT **Sep 2026 – Present**

- Diagnose customer needs and issues through consultative selling, then deliver the right mobile and connectivity solution.

Product Manager - Devices, Digital Transformation **Oct 2023 – Jun 2026**

Du Telecom | Dubai, UAE

- Owned the product strategy and roadmap for device digital transformation across consumer and enterprise segments, covering smartphones, tablets, wearables, routers, laptops, and smart home products.
- Led software product ownership for Device Installment Plan flows on Du's new enterprise billing stack. Defined consumer journeys, wrote the requirements, signed off eligibility logic and offer presentation, and worked with engineering from spec through to go-live.
- Owned the device entries in Du's BSS product catalog: decided which devices were listed, defined their attributes and prices, and approved changes. Worked with the system integrator and NetCracker's managed services team to get updates into the live environment on time.
- Built the DIP expansion framework for Consumer Fixed segments (Fiber and Home Wireless). It became the internal standard across the business and opened monetisation pathways for device categories outside mobile.
- Ran cross-functional delivery across Engineering, Digital, Legal, Brand, Operations, and Sales, managing priorities and release decisions inside a regulated environment. Used market and customer insight to shape roadmap decisions, then tracked adoption and revenue against defined product KPIs.
- Delivered 22% YoY DIP revenue growth, 20% YoY handset sales volume growth, 20% YoY net sales value uplift, and a 47% iPhone sales uplift across the iPhone 16 to 17 cycle.
- Ran growth mindset workshops and built internal training materials as part of Du's wider cultural transformation program.

Product Marketing Manager **Jun 2022 – Sep 2023**

xNARA Biologics | Dubai, UAE

- First commercial hire, reporting to the CMO. Built the product marketing and customer support function with no existing structure to build on.
- Acted as product owner for the company's app and website build: ran user research, wrote requirements and user stories, and worked directly with engineering through the full delivery cycle.
- Led the Salesforce CRM implementation end to end. Scoped requirements, designed workflows, managed delivery, trained the team, and drove adoption.

- Took customer support from 4 people to 15 through structured onboarding, clear performance standards, and ongoing mentoring.
- Developed product marketing strategy and positioning for a complex biotech portfolio aimed at regional healthcare and distribution channels.
- Grew the active customer base to around 2,000 by the time of departure.

Global Sourcing & Brand Relations Manager **Feb 2021 – Jun 2022**
Leverify | Islamabad, Pakistan (Remote)
- Built AI and ML automation into sourcing and procurement workflows, lifting productivity by 65%.
- Managed brand relationships and sourcing pipelines across international markets, improving margin by 35% through structured vendor negotiation and better use of data.

Product Marketing Manager **Dec 2018 – Mar 2020**
Muller & Phipps MEA | Dubai, UAE
- Led the Honor Mobile launch across MEA: GTM strategy, channel activation, sales enablement, and sell-through execution across a wide retail and carrier network.
- Managed a retail promoter workforce of 100+ through three direct-report supervisors, owning scheduling, incentives, and bonus structure.
- Reached 85% channel coverage at launch and grew retail sellout 20% in the first three months.

Product Marketing Manager **Oct 2011 – Nov 2018**
Sony Mobile | Dubai, UAE
- Owned product strategy, GTM execution, and product marketing for the full Sony Mobile portfolio across MEA for seven years: smartphones, tablets, and accessories across the full lifecycle.
- Regional product owner for Xperia Lounge, Sony Mobile's consumer loyalty app with hundreds of thousands of active users across MEA, shaping feature priorities, messaging, and partner integrations.
- Selected as part of Sony's elite international product team to represent Sony Mobile MEA at MWC Barcelona, presenting product direction to global partners, customers, and media.
- Built long-term relationships with key carrier and retail partners, coordinating launches across marketing, sales, supply chain, and after-sales.
- FY2016-17: 36% volume growth, 38% sales growth, 13% margin improvement, all year on year.

Product Manager **Jan 2007 – Oct 2011**
Nokia | Dubai, UAE
- Managed Nokia's Entertainment product range across MEA, owning the full lifecycle for 40+ smartphone launches including localisation, carrier partnerships, and retail execution.
- Regional product manager for Nokia Music Store, covering product direction, localisation, carrier API integrations, and market activation.

Product Manager **Aug 2001 – Nov 2006**
Siemens Mobile | Dubai, UAE
- Managed product portfolio strategy, pricing, and GTM execution across MEA.
- Delivered 27% customer penetration growth through targeted promotional programs and partner activation.
